Secretary's Report

November, 1987

To the Governor, Legislature, and People of South Dakota:

The business of collecting taxes for the support of state and local governments is accomplished daily by a team of professionals without much fanfare. In South Dakota, we do that business as efficiently as any state in the nation, and our cost per dollar of revenue collected is extremely low given our sparse population and the distances between our cities. We, as South Dakotans, can be proud of that efficiency.

The accounting and reporting for the diversity of funds and sources is often a tedious undertaking. With this issue of South Dakota's Annual Report, we hope to make more readable and understandable the status of the collections for our state and its cities and counties. The lists and columns of figures are aided by graphics and a format designed to assist those seeking information on a specific topic.

We pledge to continue to improve this report even more in the coming year.

Sincerely,

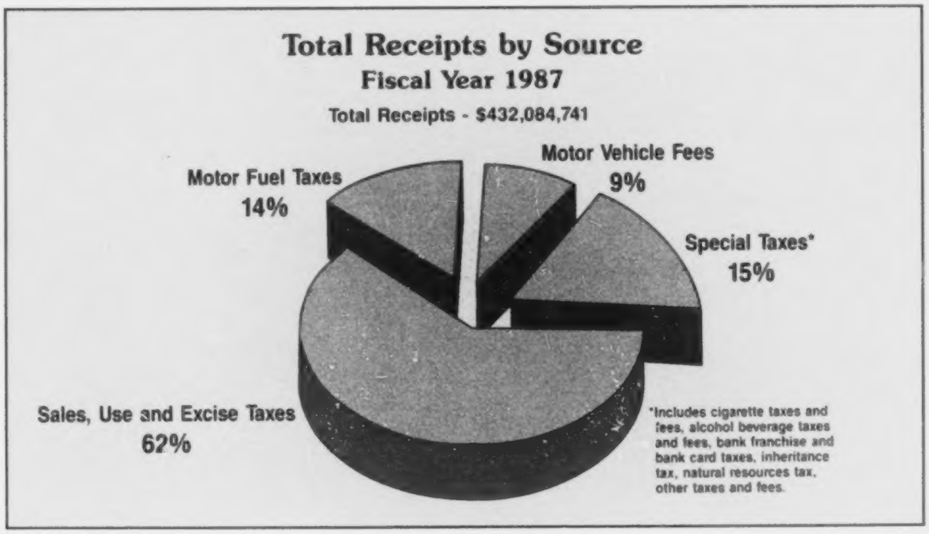
Ron

Ron Schreiner
Secretary of Revenue

Department of Revenue Taxes: Their Collection and Distribution

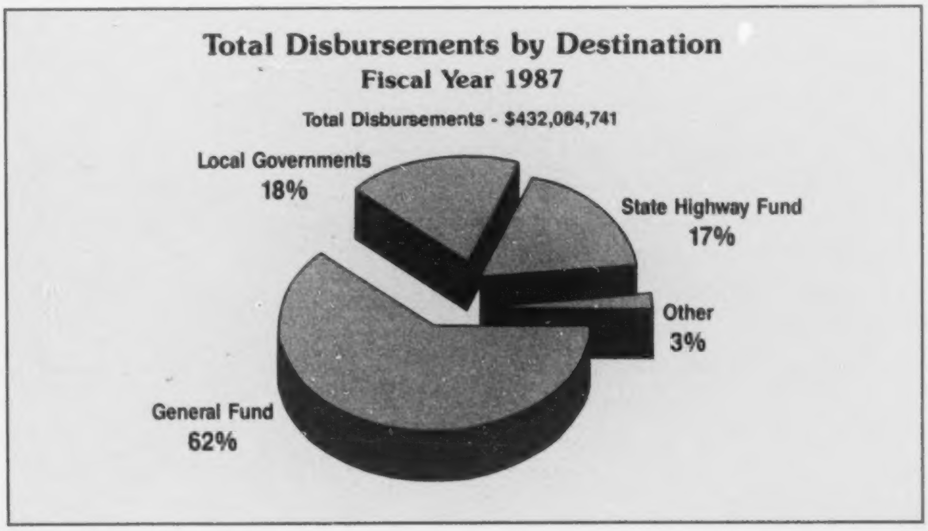
The South Dakota Department of Revenue is the principal agency of tax administration for the State of South Dakota and for certain local government taxes. For the fiscal year ending June 30, 1987, taxes collected by the Department amounted to over $432 million. A breakdown of total receipts collected and administered by the Department is shown in the chart below.

The Department of Revenue collected over $432 million during fiscal year 1987.



The primary recipient of the Department's collections is the State General Fund. A substantial sum of money collected by the Department of Revenue flows back to local communities each year. During fiscal year 1987, over 18% of the revenue collected by the Department was sent directly back to local communities. The chart below shows how the money that the department collects is distributed.

The State General Fund received almost 62% of the Department's total collections.

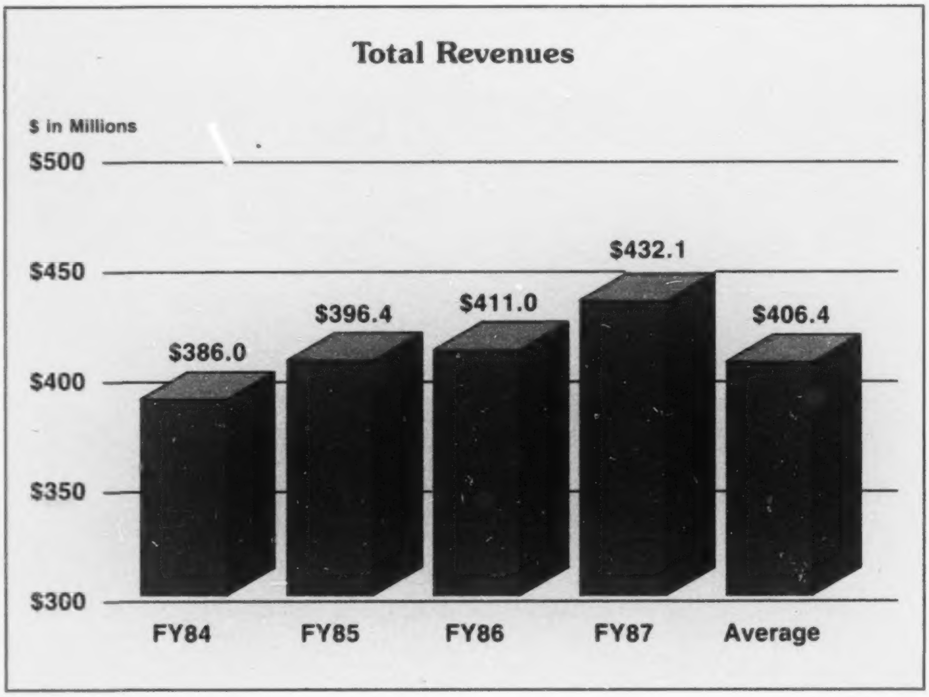


An Overview of Tax Revenues

Summary of taxes administered by the Department of Revenue.

Total revenues collected by the Department from taxes and fees in fiscal year 1987 totaled $432,084,741. The major source of revenue has been and continues to be the sales, use and excise taxes. Other major sources include motor fuel dealers tax, motor vehicle fees, and the bank card and bank franchise taxes.

Total collections by the Department over the last four years.

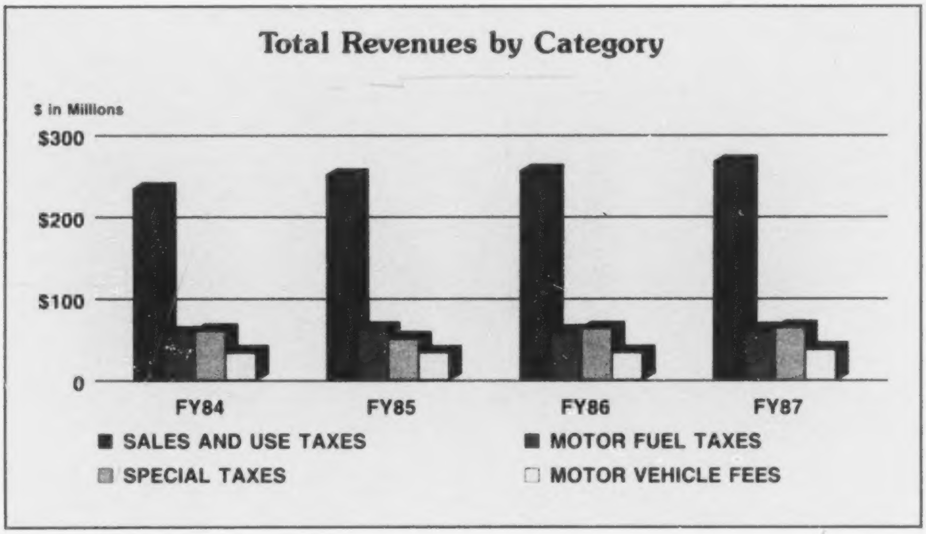


Total receipts by the Department of Revenue increased by over $21 million in fiscal year 1987 compared to fiscal year 1986.

Fiscal Year	Amount of Revenue	Percent of Change
1984	$386,038,632	14.28%
1985	$396,371,996	2.68%
1986	$410,981,487	3.69%
1987	$432,084,741	5.13%

The taxes the Department of Revenue administers and collects are divided into four broad categories: sales, use and excise taxes; motor vehicle fees; motor fuels; and special taxes such as bank franchise, cigarette tax, alcohol tax, ore tax, etc.

The amount each category contributes to total revenues varies from year to year. For example, in fiscal year 1986, motor vehicle fees made up 5.6% of the total, whereas in fiscal year 1987 the percentage increased to 8.8%.



Revenues by tax category: sales, use and excise taxes; motor vehicle fees; motor fuel taxes; and special taxes.

Three of the four categories show an increase in revenues in fiscal year 1987 over fiscal year 1986.

Total Receipts

Property Tax

How property taxes are determined.

The Department of Revenue provides assistance to local governments in administration of property taxes and to help insure that all assessments of property are fair and equitable and in compliance with the laws of South Dakota.

The following is a brief step-by-step synopsis of the way in which property taxes (with the exception of centrally assessed properties) in South Dakota are determined.

Step 1

All property is assessed its full and true value in January of each year.

Example: John Doe's house is determined to be worth $40,000.

Step 2

Taxable value = percent x full and true value. In May, each county Board of Equalization determines what percent of the full and true value will be the taxable value. This percent cannot exceed 60 percent. At that time, the total taxable value in each taxing jurisdication within the county will be determined.

Example: The county board determines that 40% of the true value will be the taxable value: 40% x $40,000 = $16,000. The total full and true value of property in a taxing jurisdiction was determined to be $20,000,000. The total taxable value = $20,000,000 x 40% = $8,000,000.

Step 3

In October, the various taxing jurisdictions (county, school district, city, etc.) within the county submit their budgets to the county auditor.

Step 4

Mill Levy = (Budget/Taxable Value) x 1000. Mill levies (within statutory limits) for each taxing jurisdiction are determined by dividing the budget by the taxable value within a taxing jurisdiction and multiplying the results by 1000.

Example:
A taxing jurisdiction has a budget of $100,000.
Mill levy = ($100,000/$8,000,000) 1000 = 10.00 mills.

Step 5

Mill Levy = 1/1000 of Tax Dollar. One mill is equal to 1/10 of a cent or 1/1000 of a dollar.

Example: City taxes, based on 10 mill levy, are $1.00 per $100 of the taxable value. If taxable value = $16,000, the taxes equal $16,000 x 10/1000 = $160.00

Step 6

Taxes are due on January 1 of the year following the assessment. One-half of the taxes must be paid by May 1 of the year following the assessment and the remaining half must be paid by November 1 of the year following the assessment. All property taxes are paid to the county treasurer.

Property taxes are valued during 1986 and payable in 1987.

Property Tax Replacement

Counties receive personal property tax replacement money.

Since fiscal year 1980, $40,744,104 has been appropriated from the State General Fund for distribution to counties. This money is sent to the counties to relieve the revenues after the repeal of the personal property tax. An amount less than this was appropriated prior to fiscal year 1980 as some personal property was still subject to taxation.

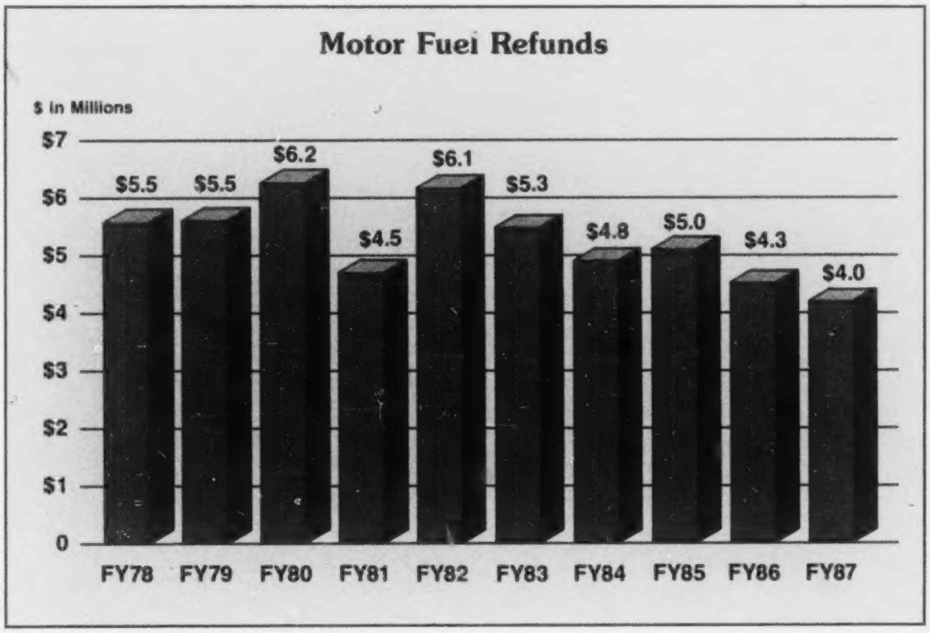
Tax Refund Programs/*continued*

Motor Fuel Tax Refunds

A motor fuel tax refund is allowed when tax has been paid on motor fuel bought for nonhighway agricultural and nonhighway commercial purposes. These refunds are paid out of the motor fuel collections. During fiscal year 1987 there were 17,167 refund claims that totaled a payment of $4,081,955. The average claim amounted to $238 in fiscal year 1987, whereas in fiscal year 1986 the average refund claim was $222.

Ten-year look at total motor fuel refunds.



Departmental Overview

Total administrative costs for the Department of Revenue during fiscal year 1987 were $5,763,417. Of these costs, $3,186,506 were General Fund dollars, and $2,576,911 were Other funds.

The Department is organized into five divisions and the Office of the Secretary. During fiscal year 1987 there were 127 full-time employees.

Goals

It is the responsibility of the Department to . . .

- collect, deposit and distribute the revenues which form the financial base for state agencies, thus providing services to benefit South Dakota citizens;
- enforce the revenue statutes of the state;
- encourage voluntary compliance through written information and increased taxpayer service;
- use all available resources of the Department to serve, assist, and educate South Dakota citizens with respect to the tax laws, and manage tax programs effectively and efficiently.

Legal Services

Legal Services conducts administrative hearings, provides legal advice to the Department, assists in the drafting of proposed legislation, and handles court litigation that involves the Department.

Support Services

Support Services provides internal support to the five divisions. Services provided include recording and depositing of all incoming revenues, maintenance of computer files, accounting of all the physical assets of the Department, recording of Department financial transactions including all budgetary data, and the general insurance of fiscal responsibility within the Department. The Remittance Center, located in Sioux Falls, processes the revenues and returns for the Department as well as for other agencies.

Monies processed at the Remittance Center are deposited in the bank on the same day of receipt by 8:00 a.m., thereby earning a full day's interest.

SECTION VII: DIVISION OF PROPERTY TAXES

SDCL 10-1-15 through 10-1-40, inclusive, enumerate various duties of the Secretary of Revenue relative to the fair and equitable administration of property taxes. To assist the Secretary of Revenue in those duties, under authority of SDCL 10-1-16, the Division of Property Tax was established.

The main duties of the Division are to provide assistance to local governments in administration of property taxes and to help insure that all assessments of property are fair and equitable and in compliance with the laws of South Dakota. The Division assists local governments by working with the directors of equalization and city assessors, providing field assistance in reappraisals of one or more classes of property, assisting in the appraisals of special properties, and providing data for the assessment of agricultural land based on its productive capacity. The Division helps to insure fair and equitable assessment of property by compiling and monitoring sales ratio data and training and certification of assessing officials throughout the state.

The Division monitors and checks local budget requests based on property tax revenue, and mill levy limitations. The Division also has the responsibility of assessing all railroad and utility property in the state.

The following is a brief step by step synopsis of the way in which property taxes (with the exception of centrally assessed properties) in South Dakota are determined.

Step A. The full and true value of all property in the state is determined by assessment on January 1.

Step B. Early in May each county Board of Equalization sets a percentage which will be the percent that taxable value will be of full and true value, not to exceed 60 percent. At that time the total taxable value in each taxing jurisdiction within the county will be determined.

Step C. The various taxing jurisdictions (county, school district, city, etc.) within the county submit their budgets to the county auditor. This is generally done by October.

Step D. Mill levies (within statutory limits) for each taxing jurisdiction are determined by dividing the budget by the taxable value within the taxing jurisdiction and multiplying the result by 1,000. For example if the full and true value of all property within a city is $10,000,000 and the county Board of Equalization determines that 40 percent of full and true value ($4,000,000) will be taxable value, and the city has a budget of $100,000, the mill levy is computed as follows:

taxable value - 40% x full and true value
taxable value = 40% x ($10,000,000) = $4,000,000
mill levy = (budget divided by taxable value) x 1000
mill levy = ($100,000 divided by $4,000,000) x 1000 = 25.00 mills

Step E. One mill is equal to 1/10 of a cent or 1/1000 of a dollar. Thus from the example in Step D, city taxes are $2.50 per $100 of taxable value. For example, if a person has property with a full and true value of $30,000 his city taxes would be computed as follows:

taxable value - 40% x full and true value
taxable value = 40% x $30,000 = $12,000
taxes = taxable value x (mill levy divided by 1000)
taxes = $12,000 x 25/1000 = $300

Step F. Taxes are due on January 1 of the year following the assessment. One-half of the taxes must be paid by May 1 of the year following the assessment and the remaining half must be paid by November 1 of the year following the assessment. All property taxes are paid to the county treasurer.

EXPLANATION OF THE 1987 STATISTICS BY COUNTY
1987 TAXES PAYABLE IN 1988 ARE BASED ON THE 1987 VALUATION

PROPERTY TAXES COLLECTED FROM ALL SOURCES -

Upon receipt of property taxes, the county distributes the money back to the different taxing entities. The taxing entity and the amount of tax distributed depends on the property for which taxes were collected. The table shows total amount that was to be collected for each type of taxing district, the amount and the percent that was collected.

AMOUNT OF TAXABLE VALUATION, LEVIES AND TAXES FOR MUNICIPALITIES -

All incorporated municipalities within the state are listed. The taxable valuation and the levies applied to that valuation are listed and used to determine total amount of property taxes within the municipality. The column ADJUSTED VALUE is the value for school purposes. In these cases, all levies are applied against the TAXABLE VALUE, except the school levy, which is applied against the adjusted value.

VALUATIONS -

Each county is listed showing total full and true (assessed) valuation of real property, the taxable percent and the taxable valuation of utility companies.

UNAUDITED FINANCIAL REPORT -

Assets, liabilities, equity, revenue and expenditures for counties, cities and school districts are listed. These are the amounts as reported to the county auditor by the taxing district. School districts are identified by the school district number preceding the school district name.

COUNTY WARRANTS AND ENCUMBRANCES -

Expenditures for specified purposes and total county expenditures.

PERSONAL PROPERTY TAX REPLACEMENT -

Each county and the amount the entire county receives for the fiscal year are listed.

ABSTRACT CLASSES AND TAXES -

County full and true (assessed) valuations are shown, broken down by abstract class. Tax levy and taxes are shown for each taxing entity within county.

SCHOOLS -

Ag and non-ag mill levies apply only to "general fund for school districts".
Apply the ag levy against the ag valuation and the non-ag levy against non-ag valuation. *These levies include General Fund plus Capital Outlay and Special Education if a levy has been made for these. Due to differences in Adjustment and Bond levies for overlapping school districts, these have not always been included in the stated levies. (If the levy for bond is uniform over the whole school district, then it has been included.)
Taxes are the total for both ag and non-ag amounts and also includes taxes for any district with a Bond or Adjustment levy.
*Designates an overlapping school district and taxable valuation may have been adjusted for school purposes only.

EXPLANATION OF THE 1987 STATISTICS BY COUNTY
1987 TAXES PAYABLE IN 1988 ARE BASED ON THE 1987 VALUATION

CITIES AND TOWNS -

This levy and tax is the total amount for city use only.

TOWNSHIPS -

This valuation and tax is the total of all organized townships in the county. (There are eight counties that do not have any organized townships.)

COUNTY -

This levy and tax is the total amount for county use only.

SECONDARY ROAD -

This is applicable to unorganized townships only.

SUBDISTRICTS OF SOUTH DAKOTA CONSERVANCY DISTRICTS -

This is a special tax levied and used by the Subdistrict Conservancy Districts only. (Not all counties or part of counties participate.)

TELEPHONE OUTSIDE CORPORATE LIMITS -

This carries a special levy and the tax collected goes into the County General Fund. This is a tax paid by telephone companies.

SPECIAL ASSESSMENTS -

Includes assessments such as sidewalks, curb and gutter, weed mowing, etc.

MOBILE HOMES -

This valuation and tax is not included in the above explanations, but the tax is apportioned as other taxes and considered as Other revenue when setting up the budget.

To determine a total mill levy for any given district, you will need to add the levy for schools (ag or non-ag), city, county and any special levy that might apply to that district. In most instances, there will be an ag and non-ag levy.

SECTION VII

SOUTH DAKOTA LAND STATISTICS

South Dakota ranks 16th among the fifty states in total area. South Dakota has a total surface area of 77,116 square miles (49,354,248 acres). The total surface area of the state is composed of 75,952 square miles (48,609,280 acres) of land and 1,164 square miles (744,960 acres) of inland water. 1/

There are several units of government as well as private concerns that own the land within South Dakota. Statistics are presented as to federal and state ownership of lands in South Dakota. Statistics as to county, township, and municipal ownership of lands in the state are not readily available, and, therefore, cannot be presented. Private ownership of lands in the state is presented in two categories: Indian and non-Indian.
